Art Unit: 1614

Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-6, 10-18 and 31-33, drawn to compositions comprising a MAG expression promoter of formula I and methods of use thereof, classified in class 514, subclass 341, 396, 399.
- II. Claims 7-9 and 19-30, drawn to methods for promoting expression of MAG and for producing a MAG promoter, classified in various subclasses of class 435.

The inventions are distinct, each from the other, for the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the Groups are different inventions because Group I is directed to compositions comprising a MAG expression promoter and methods of use thereof while Group II is directed to promoting expression of MAG.

The Groups have acquired a separate status in the art as shown by their different classification and their recognized, divergent subject matter. The searches required for each Group are not co-extensive. Each Group is capable of supporting a separate patent. Thus restriction for examination purposes as indicated is proper.

Application/Control Number: 09/979506 Page 3

Art Unit: 1614

Applicants are advised that to be complete, the reply to this requirement must include an election of the invention to be examined even though the requirement is traversed (37 C FR 1.143).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C FR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 C FR 1.48(b) and by the fee required under 37 C FR 1.17(I).

Any inquiry concerning this communication should be directed to Phyllis Spivack at telephone number 703-308-4703.
